I. PROJECT

Development of Iloilo Wetland

II. OBJECTIVE

Support the development of Iloilo Wetland Eco-Park and Mangrove Rehabilitation Project being spearheaded by the City of Iloilo, DENR and Panay Energy Development Corporation.

III. COMPONENT

1. Clean-up drive in areas along coastal zone and Jaro River
2. Restoration of mangrove forest along the coastal zone and Jaro River.

IV. ACTIVITIES

1. World Water Day Launching, March 23, 2013.
2. On-going clean-up drive and mangrove planting

Summary Note from Rivers of the World Foundation:

The Jaro River cleanup activities and the development of the Iloilo Wetland Eco-park provide a great example of sustainable steps towards protection and improvement of water, health and well-being of local communities. The special attention of the group in cleaning up the watershed shows the dedication, love, and care for the River and water by the participants. The detail activity report is provided here as sent by our coordinator from the Iloilo City ENRO.
