World Water Day 2016, "Clean Brahmaputra River"-volunteer activities

The World Water Day (WWD) 2016 Brahmaputra River Trash Pickup Activity – Guwahati, Assam, India

The March 24th, 2016 riverside trash pick-up activity on the banks of the Brahmaputra River was quite successful. The results/Report below:

Report of successful completion of World Water Day 2016 at Brahmaputra River ,Assam ,India

The Brahmaputra River Cleanup activity on March 24th involved the following:

1. Location: Uzanbazar Ghat of the Brahmaputra River, Guwahati,(see Map below)
2. Total 26 nos of the volunteers from different professions participated in the programme.
3. The volunteers of the Rivers of the World Foundation, Brahmaputra River, Guwahati,Assam, cleaned the bank of the river. They have collected the trash and disposed them to the nearby garbage bin.
4. The volunteers also communicated with the local residents who are living in the proximity of the river and guided them how to clean the river bank for the sustainable use of the river resources.
5. This was very inspiring event for the local people and the volunteers.
