

WORLD WATER DAY 2026

HIMALAYAN ENGLISH SCHOOL

WORLD WATER DAY 2026

World Water Day is being celebrated every year in HES since last 10 years.

To celebrate WWD in our school we organized following activities..

- a) Save water Rally in the local market to make people aware about saving water. About 100 students (all students from class 6 to class 12) participated.**
- b) Students were encouraged to make posters with water saving slogans. About 80 students participated in this program.**
- c) “Water testing workshop” was organized in the school. Students were given training how to test water quality. Total 25 students participated in this workshop.**
- d) HES is having a weather station in its campus. We record temperature and other weather parameter everyday to show students that how weather change takes place.**

HES PLANS FOR 2026 - 2027

HES now plans to collaborate with other schools to learn and understand more about climate change activities. Like -

1) Water Testing and Monitoring – This activity is already going on in our school.

2) Now we want to learn following –

a)	Air Quality Parameters
b)	Reducing Waste activities
c)	Improve Greenery in our campus
d)	Saving Energy Activities

THANK YOU
